Overview

LexisNexis® ProviderLookup® is a Web-based, application that gives users near real-time access to individual provider and facility information. ProviderLookup® helps enhance operational efficiencies, information accuracy and expense reduction by offering one source to view a provider's information. ProviderLookup® reduces the need to search multiple sources, reducing the costs associated with the procurement of master sources. ProviderLookup® delivers near real-time, Web-based access, and frequently updated healthcare provider information. This powerful search solution enables users to query the LexisNexis Master Provider Referential Database and view comprehensive information available for each provider

Key Features of ProviderLookup®

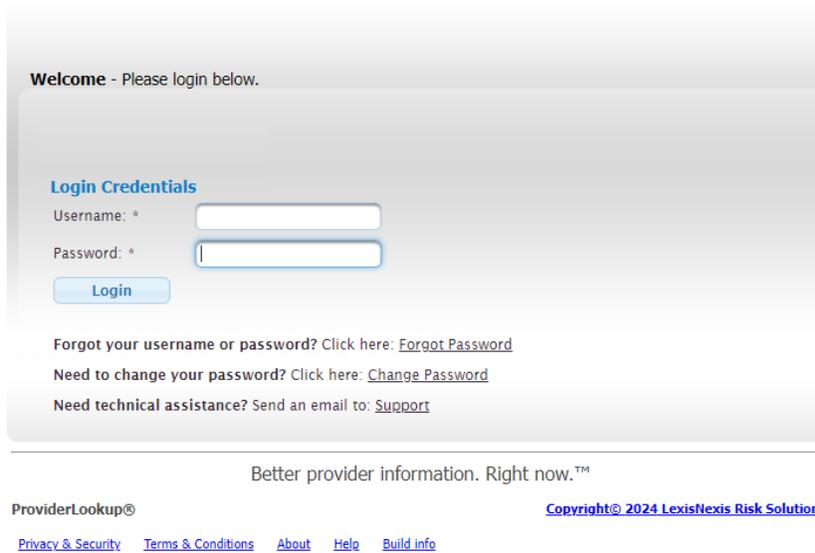

- Near real-time view of the LexisNexis Master Provider Referential Database
- 6.5 million Providers of all types including doctors, chiropractors, physical therapists, facilities and labs, etc.
- Web-based, easy-to-use, continuously updated
- Saves time and money in various functional areas

ProviderLookup® enhances staff efficiencies and provides a comprehensive, detailed provider profile suitable for use across all operational disciplines including:

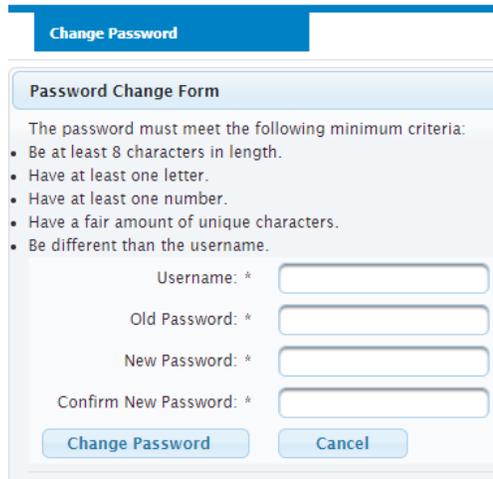

- Claims staff, Adjusters verifying claim data
- Customer service assisting members and providers
- Provider Operations staff verifying and updating records
- Credentialing staff performing research
- Marketing staff updating databases for returned mail

Accessing ProviderLookup®

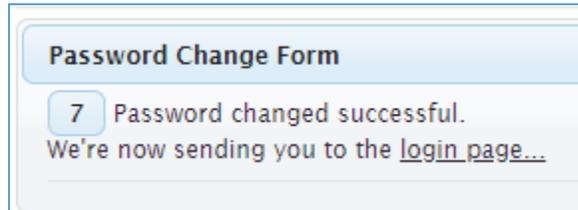

- From your Web browser (LexisNexis® Risk Solutions recommends Firefox 24, Chrome 31 or Microsoft Edge).
- Enter the Web address <https://apps.enclarity.com/providerlookup/>
- Login using the User Name and Password provided by LexisNexis® Risk Solutions, and click Login.

- The first time the user logs into ProviderLookup®, the change password page will open allowing the user to create a new, unique password.

- Enter the current USERNAME, OLD PASSWORD, NEW PASSWORD and enter the same password in the CONFIRM NEW PASSWORD field. Click on the CHANGE PASSWORD button to complete the change. The following message will display if the password passes validation. A countdown timer box will appear to the left of message, indicating the time remaining before the user is redirected to the login page.

- The password must be a minimum of eight characters long with at least one alpha and one numeric character, have enough unique characters, and be different from the username. If the password does not pass validation, the user will receive the following error:

Change Password

Password Change Form

 Password change failed. Please try again.

The password must meet the following minimum criteria:

- Be at least 8 characters in length.
- Have at least one letter.
- Have at least one number.
- Have a fair amount of unique characters.
- Be different than the username.

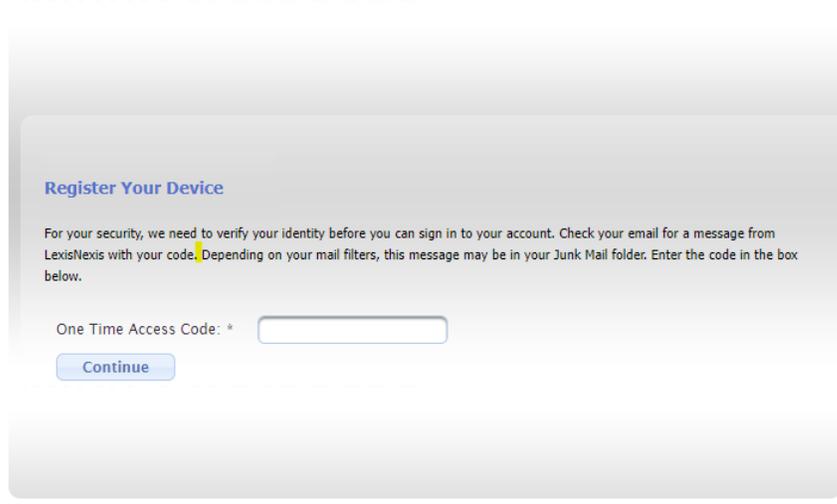

Username: *

Old Password: *

New Password: *

Confirm New Password: *

- After entering user’s password, user will be asked to register user’s device with a One Time Password (OTP) which user will receive in user’s email. Depending on user’s mail filters, the message may be in user Junk Mail folder.
- The user’s employer needs to provide the IP address to be added to the allowed list so that the OTP will be valid for 90 days.
- If the user’s employer does not provide the IP address, then the OTP will be required every time for login.
- If the user clears their cache or change web browser, then the OTP will be required.

How to Perform a Provider Search

1. Enter provider search criteria under the "Individual Provider" tab.
 - You must enter information in at least one of the following fields: name, license number, DEA number, UPIN number or NPI number.
2. Click the SEARCH button.
 - A table of search results will appear below the search criteria.
 - If the search was successful, a list of providers that match the search criteria will be displayed in descending order based on relevance. The provider with the highest relevance will appear at the top of the list. If more than 25 providers are returned by the search, only the top 25 most relevant providers will display in the list. Each provider row is a link that you can click to see the detail for that provider.
 - If the search was unsuccessful, the table of providers will be empty.
3. Click on a provider in the table of search results.
 - A provider detail page will display the details for the provider you selected.
4. Click on the "Back to List" link at the top of the page.
 - This will take you back to the provider search page.

How to Perform a Facility Search

1. Enter facility search criteria under the "Company/Facility" tab.
 - You must enter information for at least Company/Facility with City and State or Zip, or License Number, DEA Number, OSCAR Number, or NPI Number.
2. Click the SEARCH button.
 - A table of search results will appear below the search criteria.
 - If the search was successful, a list of facilities that match the search criteria will be displayed in descending order based on relevance. The facility with the highest relevance will appear at the top of the list. Each facility row is a link that you can click to see the detail for that facility.
 - If the search was unsuccessful, the table of facilities will be empty.
3. Click on a facility in the table of search results.
 - A facility detail page will display the details for the facility you selected.
4. Click on the "Back to List" link at the top of the page.
 - This will take you back to the facility search page.

Using ProviderLookup® Individual Provider Search

Select the Individual Provider tab to begin search for a specific individual provider.

Use of the search fields allows users to view individual providers or a subset of providers that match the search criteria. The more specific the search information entered, the higher the degree of match relevance.

Field Definitions for Individual Provider Search

- **First Name:** If searching by name, a minimum of the provider's first initial of the first name is required.
- **Middle Name:** Optional field.
- **Last Name:** If searching by name, a minimum of the provider's first initial of the last name is required.
- **Suffix** (generational or degree): Optional field, when entered will increase the relevance of the search results.
- **Address** (street address or PO Box address): Optional field, when entered will increase the relevance of the search results.
- **City:** Optional field, when entered will increase the relevance of the search results.
- **State:** Recommended field, if known, the state should be entered to increase the relevance of the search. Entering this field will assist in limiting the number of possible returns.

LexisNexis® Risk Solutions recommends entering a state whenever using a name search.

- **Zip:** Optional field, when entered will increase the relevance of the search results.
- **Phone** (Number including area code): Optional field, when entered will increase the relevance of the search results. This must be entered exactly as the provider phone number.
- **License Number:** Optional field, when entered will increase the relevance of the search results. The license number entered must be an exact match to the provider's license number.
- **License State:** Required field if the "License Number" field is used.
- **DEA Number:** Optional field, when entered will increase the relevance of the search results. This field may be used for searching specifically by DEA number. The DEA number entered must be an exact match to the provider's DEA number.
 - **NOTE:** DEA data requires certification for access to this data, which is then reflected in the client's data configuration setup. There are 3 levels of access with different impacts for each:
 - **FULL** – permits access to all DEA data elements, and users may search using DEA number.
 - **LIMITED** – permits access to all DEA data elements **EXCEPT** for DEA number and expiration date. Users may not perform searches using DEA number (any input to the DEA number field will be ignored when the search is performed).
 - **NONE** – no access is permitted to any DEA data, and users may not perform searches using DEA number (any input to the DEA number field will be ignored when the search is performed).
- **UPIN Number:** Optional field, when entered will increase the relevance of the search results. This field may be used for searching specifically by UPIN number. The UPIN number entered must be an exact match to the provider's UPIN
- **NPI Number:** Optional field, when entered will increase the relevance of the search results. This field may be used for searching specifically by NPI number. The NPI number entered must be an exact match to the provider's NPI number.
- **TIN:** Optional field, when entered will increase the relevance of the search results. When providing a TIN number, you must provide a minimum of last name and the first initial of the first name
- **Search:** This button will initiate the search process.

- **Clear:** This button will clear all fields on the search page.
- **View Results Box** (): The number entered in this field represents the number of provider candidates listed in the search results list. Any positive number above 0 up to 2 digits is allowed in this field, the default value is 25. If a valid number is not entered, the value will automatically adjust accordingly to meet requirements.

Searching Hints

Name Search

Minimal Entry Name Search:

- First Initial (or full first name)
- Last Name
- State is optional but if known should be entered in order to minimize the time that a search takes and to limit the number of possible returns, a state is always recommended with a name search. In order for location indicators to appear on map, state must be specified.

Best Name Search

- Full first, middle and last name
- Suffix (either, generation or degree Jr., Sr., MD, DO)
- Street Address
- City
- State
- Zip

NPI Search

- Enter the exact ten digit NPI number

DEA Search (**please refer to the note on DEA data permission in the Field Definitions section*)

- Enter the exact nine digit DEA number

UPIN Search

- Enter the exact six-digit UPIN number. This is not a recommended search as the UPIN is being phased out and no new UPINs have been issued since mid-2007.

State License Search

- Enter the exact State License number as issued by the state. This search requires the exact string as issued by the licensing state, and is easy to misinterpret.
- Enter the state of licensure

Phone Number Search

- Enter all or part of the provider First and Last Name
- State – Recommended
- Enter the complete 10-digit phone number of the provider, including area code

TIN Number Search

- Enter all or part of the provider First and Last Name
- Enter the complete 9-digit TIN number associated with the provider

Understanding Individual Provider Search Results

The search box continues to display at the top of the screen and displays search items as they were entered.

The matched records for potential candidates are displayed in the results list below the search page. The more search information entered, the more precise the match and the fewer potential returned provider records. The broader the search, the less precise the match will be, and a greater number of records will be returned.

Field Name/Definitions

- **Relevance:** This score is the relevance of the returned provider information in relation to the search information that was entered. The higher the score, the more relevant the provider information displayed is to the search information. The lowest relevance displayed would be 1 and the highest score would be 100 for a perfect match.
- **Provider Name:** Name of provider
 - f.k.a – If a provider is searched for using a former name, and then the new provider name will be displayed with the f.k.a below it.
- **Company:** Company associated with the provider for that location
- **Address:** Street address associated with the provider
- **City:** City associated with the provider and the company

- **State:** State associated with the provider and the company
- **Phone Number:** Phone number associated with the provider and the company

Understanding the Individual Provider Detail Page

After selecting the relevant provider, the detailed provider screen will display.

Columns with an up/down arrow icon () are sortable in ascending/descending order by clicking on the icon. Columns that have been sorted are blue and have a single arrow icon (). For example:

Company/Address 	Phone 	Fax 	Last Update Date 	Phone Verified 	High Verified 	Inactive 	Undeliverable 
---	---	---	--	--	---	--	---

Using ProviderLookup® Company/Facility Search

Select the Company/Facility tab to begin searching for a Facility or Company.

Use of the search fields allows users to view company and/or facilities that match the search criteria.

The more specific the search information entered, the higher the degree of match relevance.

The screenshot shows the LexisNexis ProviderLookup interface. At the top, there is a navigation bar with tabs for 'Individual Provider' and 'Company/Facility'. The 'Company/Facility' tab is selected. Below the navigation bar is a search criteria form with the following fields:

- Company/Facility (text input)
- Address (text input)
- City (text input)
- State (dropdown menu)
- Zip (text input)
- Phone (text input)
- License Number (text input)
- License State (dropdown menu)
- DEA Number (text input)
- NPI Number (text input)

On the right side of the form, there are buttons for 'Search', 'Clear', and 'View: 25 Results'.

Field Definitions for Company/Facility Search

- **Company/Facility:** Required Field, enter Full Name of Company, Facility
- **Address (street address or PO Box address):** Optional field, when entered will increase the relevance of the search results.
- **City:** Required field enter.
- **State:** Required field.
- **Zip:** Required field if the State has not been entered; Optional field if the State has been entered, when entered with the state this will increase the relevance of the search results.
- **Phone: (Number including area code):** Optional field, when entered will increase the relevance of the search results. This must be entered exactly as the provider phone number.
- **License Number:** Optional field, when entered will increase the relevance of the search results. This field may be used for searching specifically by License number. The license number entered must be an exact match to the provider's license number.
- **License State:** Required field, if the "License Number" field is used
- **DEA Number:** Optional field, when entered will increase the relevance of the search results. This field may be used for searching specifically by DEA number. The DEA number entered must be an exact match to the provider's DEA number

- o **NOTE:** DEA data requires certification for access to this data, which is then reflected in the client's data configuration setup. There are 3 levels of access with different impacts for each:
 - **FULL** – permits access to all DEA data elements, and users may search using DEA number.
 - **LIMITED** – permits access to all DEA data elements **EXCEPT** for DEA number and expiration date. Users may not perform searches using DEA number (any input to the DEA number field will be ignored when the search is performed).
 - **NONE** – no access is permitted to any DEA data, and users may not perform searches using DEA number (any input to the DEA number field will be ignored when the search is performed).
- **NPI Number:** Optional field, when entered will increase the relevance of the search results. This field may be used for searching specifically by NPI number. The NPI number entered must be an exact match to the provider's NPI number.
- **Search:** This button will initiate the search process.
- **Clear:** This button will clear all fields on the search page.
- **View Results Box** (): The number entered in this field represents the number of provider candidates listed in the search results list. Any positive number above 0 up to 2 digits is allowed in this field, the default value is 25. If a valid number is not entered, it will auto-resolve to a minimum value of 1 when a zero or negative number is given, a maximum value of 100 when a value greater than 100 is given, or to the whole number present if a decimal point is given (e.g. entering 13.75 will auto-resolve to the value of 13).

Company/Facility Search Hints

Minimal Entry Name Search:

- Complete Name without abbreviations is recommended
- City is required
- State is required

Best Name Search

- Complete Name without abbreviations is recommended
- Street Address
- City
- State
- Zip Code

NPI Search

- Enter the exact ten-digit NPI number

DEA Search (**please refer to the note on DEA data permission in the Field Definitions section*)

- Enter the exact nine-digit DEA number

State License Search

- Enter the exact State License number as issued by the state. This search requires the exact string as issued by the licensing state, and is easy to misinterpret.
- Enter the state of licensure

Phone Number Search

- Enter the complete provider name without abbreviations
- City – Recommended
- State – Recommended
- Enter the complete 10 digit phone number of the provider, including area code

Understanding Company/Facility Search Results

The search box, with the entered search items continues to display at the top of the screen. The potential matched records are displayed in the results list below the search page. The more search information entered, the more precise the match and the fewer potential returned provider records. The broader the search, the less precise the match will be, and a greater number of records will be returned.

Field Name/Definitions

- **Relevance:** This score is the relevance of the returned provider information in relation to the search information. The higher the score, the more relevant the provider information displayed is to the search information. The lowest relevance score displayed would be 20 and the highest relevance score would be 100 for a perfect match.
- **Company Name:** List of potential matches to searched Company/Facility name. NOTE: results may include multiple rows for the same facility that represent individual departments within the facility.
 - **Facility/Department** based on the reported **Taxonomy** code's description

- **Address:** Street address associated with the provider and the company
- **City:** City associated with the Company/Facility
- **State:** State associated with Company/Facility
- **Phone:** Phone number associated with the Company/Facility

Understanding the Company/Facility Detail Page

Provider State Opt-Outs

LexisNexis® Risk Solutions has been following the development and evolution of state laws surrounding consumer privacy, and has actively worked on implementing product updates to remain compliant with such laws. One such example is the California Consumer Privacy Act (CCPA), which grants California residents certain rights regarding personal information that has been collected, sold, or disclosed by businesses subject to the law (effective January 1, 2020). Individuals will have the option and right to opt out of having personal information sold to a third party.

For additional information on CCPA or if you have any additional questions, please call LexisNexis® Risk Solutions at 1-888-217-1591, email CCPA@lexisnexisrisk.com, or visit <https://risk.lexisnexis.com/ccpa>.

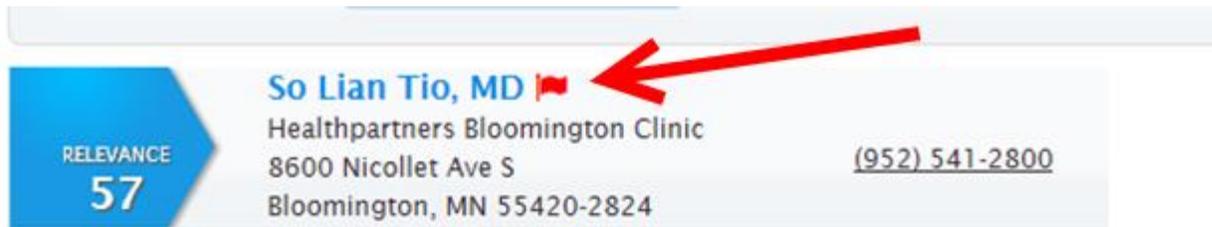

Opt-Out Status Indicator

If a provider has opted out, an indicator icon will exist to the right of the profile's name on all work screens (search results and detailed report screens). When the user's pointer is placed over the icon, the below message will be visible:

"THIS PROVIDER CURRENTLY HAS A STATE OPT OUT ON FILE PREVENTING THE RETURN OF SOME OR ALL OF THE INFORMATION YOU REQUESTED. IF THE PROVIDER HAS ANY QUESTIONS ABOUT THIS, PLEASE INSTRUCT THEM TO CALL LEXISNEXIS® RISK SOLUTIONS INC. AT 1-888-217-1591."

PLEASE NOTE THAT BELOW IS ONLY A VISUAL EXAMPLE, AND MIGHT NOT REPRESENT A PROVIDER THAT IN ACTUALITY HAS A STATE OPT-OUT STATUS.

The following terms and conditions (“Terms of Use”) apply to the content and any use of the ProviderLookup® Service (“Service”). Please carefully read all Terms of Use before using this Service. By using this Service, you expressly agree to them.

General

The use of the Service is licensed solely to the corporate customer (“Customer”) who has entered into a valid written license agreement (“Agreement”) with LexisNexis® Risk Solutions. (“LexisNexis® Risk Solutions”). The terms of the Agreement designate a specific number of authorized users (“Authorized Users”), who must be employees of the Customer, who are authorized to use the Service pursuant to the terms of the

Agreement and these Terms of Use. Only the Authorized Users may use the Service and no other employee or contractor of Customer may use the Service. Each Authorized User will be issued a unique ID, which is to be used only by the Authorized User in his or her access to and use of the

Service. Authorized Users may only access the Service through the Website (“Site”) designated by LexisNexis® Risk Solutions using a valid user ID assigned to that particular Authorized User. Use of the Service or the unique ID’s may not be shared or transferred between or among other Customer employees or contractors. Authorized Users may not disclose or share the user ID’s or other account information with any other Customer employee or contractor. The Service enables the Authorized User to perform a single provider query at a time and there is no batch or multiple provider query functionality. The provider information and content accessed through this Service may be used for lawful purposes only.

Unless otherwise stated herein:

1. Permission is given to the Authorized User to view, print, and use the provider information accessed through the Service only for the Customer’s internal business purpose, provided that no copyright, service mark, trademark, or other proprietary notices which accompany any provider information or content are deleted or changed;
2. Provider information or content accessed through the Service may not be copied, reproduced, published, repurposed, transmitted, displayed, downloaded, uploaded, posted, distributed, rented, sub-licensed, altered, stored for subsequent use, or otherwise used in whole or in part in any manner or medium; and

3. Use of the provider information or content accessed through this Service may not be used for any other purpose that violates LexisNexis® Risk Solutions' intellectual property rights.

Links to and links from the Site hosting this Service are expressly prohibited.

Disclaimers

The online provider search Service is populated from LexisNexis® Master Referential Database. Information about providers made available through the Service changes frequently and often without notice.

LexisNexis® Risk Solutions does not guarantee the correctness, accuracy, or reliability of any information contained herein. LexisNexis® Risk Solutions has no obligation to update any provider information or content on the Site, and provider information or content may be out of date at any given time.
